

LEADERSHIP COACHING SERIES

FOR ORGANIZATIONS TO REMAIN COMPETITIVE IN AN EVER-CHANGING MARKET, LEADERS – OF ALL LEVELS – MUST BE EQUIPPED TO INSPIRE OTHERS, THINK STRATEGICALLY, MAKE RAPID DECISIONS AND DRIVE RESULTS DURING TIMES OF VOLATILITY, COMPLEXITY AND UNCERTAINTY.

Through a series of interactive workshops and one-on-one coaching, the Leadership Coaching Series stimulates open dialogue, creativity and a deeper understanding of what it takes to be a resilient leader. Using a combination of hands-on activities, classroom learning, group discussions and strategic development of a complex, real-life project, this series focuses on the core skills and competencies most associated with successful leadership such as personal branding, effective communication, creativity and strategic thinking, coaching and developing others, the power of influence, teamwork and presentation skills.

The first step in being a more effective leader is understanding your leadership and communication styles, natural strengths and potential challenge areas. Therefore, in addition to the workshops, each participant will take a series of assessments including a 360 competency-based feedback assessment and a Myers-Briggs personality type assessment. These assessments give the learner a better understanding of their self, insight into stakeholder perceptions and how to prepare for their current and potential future roles. These also provide a foundation for customized, one-on-one coaching and professional development planning.
